About Us

An ISO 9001 : 2008, Civil and Electro-Mechanical Company approved by Local Authorities, JBT Building Contracting LLC is the flagship company of the JBT International Group, which is a leading business in the Mechanical, Electrical & Construction sector, provides complete, collaborative, end-to-end solutions, infusing life into new warehouses/store houses/ buildings and sustaining life in existing ones. This has been achieved through Total Commitment, Pure Professionalism and Stringent Quality Control.

We started our Middle East Operations in a modest way based in UAE, in the year 1996. Within a span of 20 years, we have diversified our operations to focus on the core sectors of the Industry and formed five Companies to cater to the need, in the field of Electro Mechanical, Civil Engineering, Electrical Panel Fabrication and Carpentry Works delivering exceptional performance and earned a reputation as a highly dependable. We also offer our clients high performance facility operation that improves productivity; reduce energy consumption & operating costs there by providing long-term value. We have our office in Hong Kong and a fully fledged facility in India to support our WTP, ETP & STP installation operations.

JBT Building Contracting LLC is the Engineering Solutions and Service provider in the field of Civil and MEP, but not limited to Industrial Civil Projects, Electromechanical projects, HVAC, Electrical Switchgear, Control Panels, Industrial Automation and Equine facilities and services.

MISSION

To become a Committed, Competitive and Cost effective leader in the Industrial Contracting business, supported with a strong professional work force having unmatched quality and International standards. We strive hard to excel in the field and conclude all our projects in time within specified budget to create a long term association with Clients & Partners.

VISION

It is our endeavor to excel in the Industry across the World. It would always be our goal to acquire high end technologies consists of sophisticated precision machineries, test and automation equipment's with best quality control practices.
